

SYSTEM **KAN-therm**

Innovative water
and heating solutions

Novopress Press Tool **EFP203**

The new pressing tool EFP203 is stable performance, reliability and durability.

The new Basic-line pressing tool EFP203 can handle press joints up to 54 mm (System **KAN-therm Steel** and System **KAN-therm Inox**) and up to 63 mm (System **KAN-therm Press**).

Technical characteristics:

	Diameter range	12 – 63 mm
	Piston force	32 kN
	Stroke	40 mm
	Length	395 mm
	Height	203 mm
	Width	81 mm
	Mass	3 kg
	Power	450 W
	Feed	~230 V 50 Hz
	Additional options	automatic return pistol grip rotatable head

TECHNOLOGY OF SUCCESS

Thanks to 25 % savings in weight and a more slender design, the new EFP203 is even handier than its predecessor and ensures safe operation even in overhead situations. The pressing tool is a good economic alternative for modern pressing applications thanks to its automatic return and the short pressing cycle.

EFP203 assembly method:
